University of Tirana (UT)				
University of Ankara Yıldırım Beyazıt (UAYB)	2x 5 days	2x 5 days	2x 5 days	2x 5 days
South China University of Technology	2 x 5 days	2x 5 days	2x 5 days	1x 5 days

WP Number	WP3	
WP Title	Health and inhabiting: architecture, city, landscape	
WP objectives and description	WP3 is part of the "Environment" macro area of the One-Health project. It takes a holistic approach of health by studying architecture, cities, and landscape, with a focus on human well-being and safety. In recent years, many urban, rural, and historic areas have suffered from decay, abandonment, and disasters, causing environmental problems and increasing risks. WP3 aims to recognize existing structures and areas as valuable heritage and resources for renewal. It promotes new, sustainable, and inclusive ways of living to make homes, cities, and landscapes greener, inclusive, and more resilient.	

WP Number	WP6	
WP Title	Health and Development: Green Strategies and Technologies	
WP objectives and description	This Work Package aims to improve health and well- being worldwide by advancing green strategies and technologies through research and international cooperation. It focuses on enhancing collaboration between Balkan and East partner universities through Mobility of Academics (TNE Faculty and Study) and by activating double/multiple degree programmes and TNE Advanced Skills for academic staff and researchers. Key topics include circular economy business models and digital transformation, green and sustainable technologies for reduction of	
	pollution and technologies for health.
